## WASTE NOT *from* START *to* FINISH

01

### STARTING AT HOME

The foundation for all our great products is paper. The majority of our paper – the base for wrap, notes, stickers and more – is created domestically, which means it doesn't travel the world to get to you!

03

### USING OUR PAPER WISELY

Eco-White, made of 100% recycled content with 30% PCW (post-consumer waste), is the base for all our printed stationery, wrap and more. We also donate, reuse and recycle all of our scrap paper.

04

### PROVIDING A RECYCLED LINE

Our line of exclusive solid colors is made with at least 30% PCW. Our Luxe and Savoy papers are also made with a mix of recycled content and/or cotton, a renewable resource.

02

### WORKING TOGETHER WITH RESPONSIBLE MILLS + PRINTERS

Our paper comes from mills that practice responsible, sustainable forestry as certified by objective third parties. Much of our product is created using renewable energy sources, such as hydro power or wind power.

05

### PACKING WITH CARE

We have upgraded all of our packing materials to reduce waste and continue to look for creative ways to reuse shipping supplies.
